County Executive Budish and County Council Member Miller,

I have taken the liberty of attaching a letter sent today from me requesting clarification of Metro Hospital's interest in investing in Lakewood. A continued expression of this interest has appeared in numerous press releases as well as with discussions with Lakewood citizens. It appears this interest exists despite Metro's withdrawal of a proposal October 1, 2014.

I bring this to your attention because millions of dollars of investment have been indicated. In addition, transfer of assets have been also mentioned to be titled by Cuyahoga County. I am uncertain as to where this is headed, but thought you should both be notified of this discussion and its implications for Cuyahoga County government.
